Muhammed Shameer

Fullstack Developer

🏠 Malappuram, Kerala   🌐 mhmdshameer   in muhmdshameer   ✉ mhmdshameerpm@gmail.com   ☎ 9188508864

PROFESSIONAL SUMMARY

Full-stack developer with expertise in React, Next.js, TypeScript, and Node.js. Delivered scalable platforms for 250K+ users, improving performance by 30%, accessibility, and SEO. Built production-ready applications with measurable business impact. Skilled in coordinating with engineers to deliver reliable features on time under tight deadlines.

EXPERIENCE

ECLIDSE TECHNOLOGIES | FULL-STACK DEVELOPER

2024–2025 | Kerala, India

➜ Developed and maintained 5+ responsive web platforms for clients, primarily using Next.js, React, TypeScript, and Tailwind CSS, increasing platform scalability by 30% and improving user engagement in a fast-paced startup environment.

➜ Improved frontend performance and SEO, consistently achieving 90+ PageSpeed scores across multiple client websites and boosting search visibility.

➜ Delivered reusable component libraries and utility hooks that reduced development time by 25% within the small 5-member startup team.

➜ Coordinated with clients to gather requirements, present solutions, and ensure timely delivery, raising customer satisfaction scores by 30

FREELANCE PROJECTS | FULL-STACK & FRONTEND DEVELOPMENT

2024–2025 | Remote

➜ **AdamLex (Legal Management Platform)** – Spearheaded React + TypeScript multi-role dashboards, improving user flow by 30%. Implemented secure client document storage and automated PDF-to-email delivery features, boosting staff productivity and client satisfaction by reducing manual work.

➜ **Union Computers (Work Management Platform)** – Designed a workflow tool for 20+ staff to manage laptop repairs, including device logging, issue checklists, and repair time estimates. Streamlined task assignments and reduced processing delays by 40% through efficient UI workflows.

➜ **Najam Al Akhlas (Delivery Services Website)** – Built an SEO-friendly static site with HTML and CSS, optimized for mobile-first performance. Achieved a 90+ PageSpeed score and improved local customer visibility by 40%.

PROJECTS

BOOKMANIA – LIBRARY MANAGEMENT SYSTEM | MERN Stack | GitHub | Live Demo

2024

➜ Developed end-to-end MERN platform with authentication, search, and borrowing, serving 500+ test users.

➜ Optimized MongoDB queries, reducing data retrieval time by 30%.

➜ Designed responsive React UI, rated 90% in usability testing for intuitive navigation.

ADDITIONAL PROJECTS | React, Redux, TypeScript, Tailwind, Firebase, RapidAPI

2024–2025

➜ Engineered a scalable Discord clone with real-time messaging and user authentication using WebSocket technology to enhance communication.

➜ Practiced real-time features, authentication, and API integrations while optimizing performance and scalability.

COURSEWORK

- **Web Development Bootcamp** – Angela Yu
- **Harvard CS50** – Computer Science

SKILLS

Frontend

- React • Next.js
- TypeScript • Tailwind CSS
- Redux • Zod

Backend

- Node.js • Express
- PostgreSQL • MongoDB
- GraphQL • Socket.io

Tools / Platforms

- Git • Firebase
- Vercel • CI/CD
- MongoDB Atlas • tRPC
- Webpack / Vite
